

**EUT**

**Fool For The Heights**

*Acoustic performance in Martini Tower, Groningen*

*Eurosonic/Noorderslag Weekend*

*Thursday January 17<sup>th</sup> – 4pm*

## **EUT – Fool for the Heights**

### **About**

On Thursday January 17<sup>th</sup>, Dutch post pop band EUT will perform during music conference Eurosonic Noorderslag in Groningen. Eurosonic Noorderslag is a leading conference and showcase festival for the European music industry and a great opportunity for the band to manifest themselves as one of the most promising artists for 2019.

Next to the band's show at the festival, we are hosting a special performance in one of Groningen's oldest and highest buildings, the Martini Tower on market square in Groningen.

### **Concept**

EUT will perform a special, unplugged, show in the Martini Tower, supported by their carillonneur. For this special event we will have the opportunity to invite press and relations to attend this performance, which will take place in one of the city's biggest eye catchers.

EUT will be the first band to do a performance in the Martini Tower, and also the first band to do this together with their carillonneur, mr. Auke de Boer.

### **Available journalist spots**

The room has space for about 20 persons, including the band. Please let Sander Stijnen at EUT's record label V2 Records know how many spots you would need for your network and bare in mind that the spots are reserved for journalists or media partners who are going to cover the concert.

### **Timings**

The concert will take place on Thursday January 17<sup>th</sup>, at 4pm.

### **Location**

Martini Toren is located at the 'Grote Markt' in Groningen.  
Navigation address: Martinikerhof 3, 9712 JG Groningen.
